15	Gravelling of Roads in Kamuchanga Ward 6	Mufulira Central	4.2	452,109.00	4.2	100%

LESSONS LEARNT

CDF guidelines be amended to introduce disciplinary Measures against groups misappropriating the empowerment grants and WDCs be given the mandate to conduct spontaneous monitoring of funded groups within their wards and reports submitted to council

Their is a great need for CDF Guidelies to be amended by adjusting the age limit for skills development upwards.

Delayed approval Processes resulting in allocated funds to specific projects being insufficient due to price fluctuations due to Bureaucratic Procurement Procedures.

An allocat,on be secured under the CDF administrative cost component, to go towards Capacity Buiding of Cooperetives and clus in simple book keeping, financial management, good governance etc. before being funded.

Allowances be introduced for WDC members excuting CDF administrative works at Ward level.

It is important for the Ministry of Local Government and Rural Development to release following year CDF circulars so thant adverts are done on time and the community to apply for empowerment grants and skills development on time to move with school calender.

TEVETA to send quartely reports onn accreditation status of erspective learning institution s to the districts for onward transmission to the would-be learners at ward level.
